CHALLENGE THE FUTURE 

Delft University of Technology is a multifaceted institution offering education and carrying out research within the technical sciences at an internationally recognised level. TU Delft develops technologies for future generations, focusing on sustainability, safety and economic vitality.

## Full Professor of Computer Engineering

<b>Faculty:</b>	<b>Electrical Engineering, Mathematics &amp; Computer Science</b>
<b>Level:</b>	<b>PhD</b>
<b>Working hours:</b>	<b>Full-time</b>
<b>Term of contract:</b>	<b>Tenured</b>
<b>Salary:</b>	<b>From €4,883 to €8,445 per month gross</b>

The Chair is responsible for leading the Computer Engineering section, teaching, defining the curriculum, conducting research, acquiring external research funding, and performing department and university management tasks. The Chair defines relevant future research themes, the corresponding research agenda and section composition. He or she personally conducts high-level, in-depth research in several topics inside the field of Computer Engineering. The Chair works closely with other sections and departments and with industry. Transferring knowledge to industry in the form of start-ups and spin-offs is important.
